

## Heaven Is Closed - Willie Nelson - DAD

**D**

**Heaven** is closed and hell's overcrowded

**D**

**A**

So I think I think I'll just stay where I am

**A**

So many people, well it sure is lonely

**A**

Who even gives a damn?

**D**

I hear someone callin', "Come in from the craziness"

**D7**

**G**

But there ain't nobody around

**G**

**D**

Heaven is closed and hell's overcrowded

**A**

**D**

So I think I think I'll just stay where I am

**D**

**A**

**Heaven** left for California on a midnight plane

**A**

Hell stayed behind so I wouldn't be lonely

**D**

For reasons that's hard to explain

**D**

Could it be hell is heaven and that heaven is hell

**D7**

**G**

And each one are both the same thing?

**G**

**D**

Well I hope heaven finds what she's lookin' for

**A**

**D**

And that hell treats us both just the same

**Heaven** is closed and hell's overcrowded

So I think I think I'll just stay where

So many people, well it sure is lonely

Who even gives a damn?

I hear someone callin',

"Come in from the craziness"

But there ain't nobody around

Heaven is closed and hell's overcrowded

So I think I think I'll stay where I am

**Let's** burn one for those that's livin' in hell

Lets burn one for those that think theyre in heven

Burn one for everyone in the whole world

And anyone stuck in-between

**Heaven** is closed and hell's overcrowded

So I think I think I'll just stay where

So many people, well it sure is lonely

Who even gives a damn?

I hear someone callin', "Come in from the craziness"

But there ain't nobody around

Heaven is closed and hell's overcrowded

So I think I think I'll just stay where am

Yeah heaven is closed and hell's overcrowded

So I think I think I'll just stay where I am
